

Create flexible workspaces
for a dynamic workforce

Maximise your resources, increase building
efficiencies and enable flexible working with
any scale of workforce.

CONDECO DESK BOOKING SOFTWARE

Condeco Desk Booking is a user-friendly, cloud-based application that enables you to book desks, manage bookings and find colleagues.

The software enables better understanding of desk usage, facilitates desk-sharing schemes and develops new ways of working to accommodate an increasingly mobile-centric workforce.

Manage your workspace better

Comprehensive reporting functionality providing data on desk usage - if desks have actually been used, and if so, how often.

Book a desk anywhere, anytime

Through the Condeco Mobile Desk Booking app, you are able to book and manage desk bookings wherever you are.

Develop flexible ways of working

Set up flexible workspaces based on usage data collated from detailed Condeco reporting.

A comprehensive solution

Used with Condeco's mobile app for people on the go, the desk kiosk for people on arrival and desk screens for people on the floor.

Reduce your real estate costs

Understand your workplace better by identifying areas of low usage, re-purpose unused spaces or by introducing desk-sharing schemes.

Reducing your carbon footprint

Raising the usage of your workspace through the Condeco Desk Booking solution, could result in a reduction of your company's energy bills, equating in increased ROI.

KEY FEATURES

Organise and maximise desk usage

By reducing your real estate costs you are also reducing your carbon footprint.

Mobile app usage

Available on both iOS and Android, book, amend and cancel bookings at your convenience.

Find your team

Easily find colleagues working in the same group and book a desk nearby.

Reporting

Comprehensive reporting enables better and more effective resource management, resulting in a more optimised workspace.

Find desk space on any floor

Interactive office floor plans display available and booked spaces.

Auto-bump

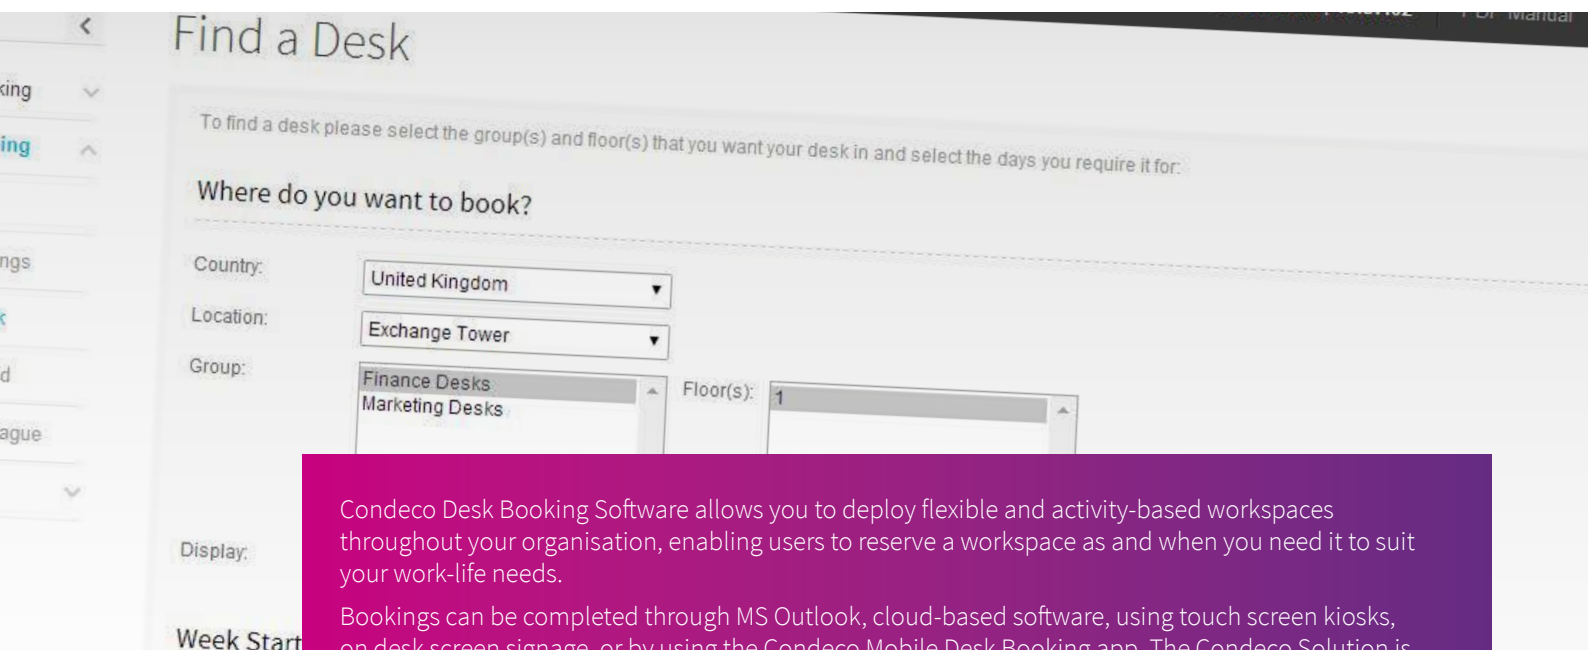

If colleagues have not checked in within the pre-set time limit, desks will be auto-released.

Cisco®phone integration

Booking functionality through existing phone infrastructure.

MS Outlook integration

Managing bookings directly from your Outlook Calendar; access the desk search and find a colleague functions for desk booking visibility.

Condeco Desk Booking Software allows you to deploy flexible and activity-based workspaces throughout your organisation, enabling users to reserve a workspace as and when you need it to suit your work-life needs.

Bookings can be completed through MS Outlook, cloud-based software, using touch screen kiosks, on desk screen signage, or by using the Condeco Mobile Desk Booking app. The Condeco Solution is scalable to support the needs of your business, from one department in one building, to an entire global enterprise. The advanced booking features and reporting facilitate improved office space usage by raising desk utilisation and enabling flexible teamwork.
