

Surface Hub 2S in the hybrid workplace

Surface Hub 2S enables your teams to collaborate no matter where they work from, helping dissolve the boundaries between remote and in-office work and keeping people, ideas, and data safe and secure.

Bring remote teams together

Enable employees to make human connections in virtual meetings, as they work in the office or from remote locations, with a crystal clear, 4K high-resolution screen.

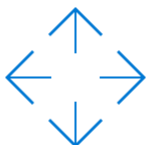

Make any place teamwork space

Empower teams to break away from fixed workspaces and take advantage of any available space by moving Surface Hub 2S wherever they work together best.¹

Collaborate better together

Bring your team up to speed with shared content and real-time updates with a persistent, interactive digital canvas.

Reduce complexity with remote device management

Apply policy or security updates remotely and seamlessly using mobile device management.

Keep company data secure

Help IT pros solve for a new security requirement—employee health and safety. Collaboration technologies used in hybrid workspaces require stringent security protocols as well as new health and safety standards.

Learn how to keep your data safe and solve the challenges your remote employees face in the hybrid workplace with our Surface Hub 2S solution guide.
