

## Your Security in the ClevertouchLive Digital Signage Cloud

Clevertouch Technologies takes your content security seriously. Our ClevertouchLive digital signage platform is a Cloud based solution that offers both remote log in capabilities along with secure network aligned capabilities.

### Key tips for ClevertouchLive Cloud Security

#### Account Credentials

Do not share log in credentials with unauthorised staff

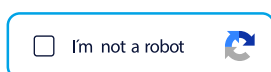

#### Account Permissions

Allocate permissions on a staff by staff basis so that account holders can only access/edit/upload their approved content

#### IP address Whitelisting

Add your IP address and the ClevertouchLive so that only users on the network can access the accounts

#### ReCAPTCHA on the portal

All account holders are required to fill in ReCAPTCHA details when logging in to

#### Server Hosting

Servers are hosted by Europe's largest hosting company and located within
